Tasneem Ahmed Gamal Eldin Shehata

Cairo, Egypt Tasneemashehata@gmail.com +20 1062614879 LinkedIn GitHub Portfolio

PROFESSIONAL SUMMARY

Full Stack .NET & Angular Developer building ERP features across CRM, accounting, HR, healthcare, sales, inventory, and production. Experienced with ASP.NET Core Web API, EF Core, SQL Server, Angular, and DevExtreme. Develops business workflows from database and API through to bilingual Arabic/English user interfaces, with attention to permissions, existing customer data, and testability.

EXPERIENCE

Full Stack Developer (.NET & Angular) *October 2024 – Present*

Pioneers Solutions – Cairo, Egypt

- **CRM:** Developed backend APIs, EF Core models, SQL upgrade scripts, and Angular screens for leads, Customer 360, activities, opportunities, custom fields, dashboards, notifications, and support tickets with working-hours SLA calculations.
- **Accounting:** Extended journal entries, cost centers, cheques, receipts, payment methods, due dates, and financial reports across backend services and Angular screens.
- **Sales, inventory, and production:** Improved document and return workflows, store transfers, production line job orders, and related validation and user interfaces.
- **Egyptian Tax Authority (ETA):** Contributed to e-Invoicing and e-Receipt workflows by improving electronic document and receipt processing across backend services and Angular screens.
- **Healthcare and HR:** Worked on patient documents, admissions, insurance policies, clinical reports, employee workflows, payroll screens, and approval processes.
- **Dynamic reporting:** Enhanced report definitions, filters, SQL-backed reports, statements, and the Angular report viewer, including Arabic and English presentation.
- **Permissions and reliability:** Added API permission actions, branch-aware access checks, user-facing validation, and automated tests for new CRM workflows.

.NET Development Trainee *July 2023 – Sept 2023*

Information Technology Institute (ITI) – Cairo, Egypt

- Completed intensive training focusing on enterprise backend engineering with C#, ASP.NET Core, LINQ, and Microsoft SQL Server.
- Designed normalized relational database architectures using EF Core (Code-First) and applied repository patterns and dependency injection.
- Developed desktop database utilities utilizing Windows Forms; verified through official ITI Certification.

UI Development Trainee *July 2022 – Aug 2022*

Information Technology Institute (ITI) – Cairo, Egypt

- Completed hands-on training in client-side engineering, responsive layouts, CSS Flexbox/Grid, and DOM manipulation using modern JavaScript and HTML5/CSS3.
- Built interactive, cross-browser single-page interfaces; verified completion via official ITI Certification.

PROJECTS

E-Commerce Store (ASP.NET MVC) *Store (MVC) — Postman Docs*

- Built an ASP.NET MVC store application with catalog, inventory, and order workflows.
- Organized the application into presentation, business-logic, and data-access projects; published the source code and API examples.
- **Technologies:** C#, ASP.NET MVC, SQL Server, Postman, Git.

Educational Management System *GitHub Repository*

- Created a multi-tier ASP.NET portal for institutional tracking of students, faculty, course catalogs, and academic grades.
- Configured role-based access security policies isolating administrative functions from student dashboards.
- Integrated automated validation models and transaction management for grade submissions and enrollment

records.

- **Technologies Used:** C#, ASP.NET Core MVC, Entity Framework Core, Microsoft SQL Server.

Human Resources (HR) Management System

- Designed an HR administration system supporting dynamic payroll generation, leave requests, attendance, and shift schedules.
- Implemented automated rule engines for calculating overtime, tax deductions, and unpaid leave penalties.
- **Technologies Used:** C#, ASP.NET MVC, Entity Framework, Microsoft SQL Server.

Lung Cancer Detection System (Graduation Project)

- Trained convolutional neural networks on chest X-ray images for a graduation research project.
- Implemented image preprocessing, augmentation pipelines, and feature map visualizations using OpenCV and Python.
- **Technologies Used:** Python, Deep Learning, CNN, Computer Vision, OpenCV.

EDUCATION

Menofia University *Sept 2019 – May 2023*

Bachelor of Science in Computer Science (Degree Certificate)

- **Relevant Coursework:** Database Systems, Software Engineering, Data Structures & Algorithms, Computational Theory, Distributed Systems, Operating Systems.

TECHNICAL SKILLS

Programming Languages: C#, TypeScript, JavaScript, SQL, Python, HTML5, CSS3.

Backend Frameworks & Core: ASP.NET Core Web API, ASP.NET Core MVC, Entity Framework Core, LINQ, RESTful APIs, Windows Forms.

Frontend Frameworks & Libraries: Angular, TypeScript, RxJS, DevExtreme, Bootstrap, Angular CLI.

Databases, Libraries & Tools: Microsoft SQL Server, DevExpress Reporting, ClosedXML, Postman, Git, GitHub, Swagger/OpenAPI.

Architecture & Concepts: Layered architecture, dependency injection, repository pattern, role-based access control, REST APIs, automated testing.

FEATURED AI PROJECT

StudyMate - AI Lecture Summarizer & Quiz Generator Public demo

- Built an Angular and ASP.NET Core app that accepts lecture text or PDF files and generates concise study briefs and multiple-choice quizzes with Gemini.
- Implemented PDF upload, input validation, structured results, and a public sample mode that replays saved Gemini output without exposing an API key.

Stack: Angular, TypeScript, ASP.NET Core, Gemini API, Docker.
