Tasneem Ahmed Gamal Eldin Shehata

Full Stack .NET & Angular Developer

Cairo, Egypt | Tasneemashehata@gmail.com | +20 1062614879

LinkedIn | github.com/tasneem2ahmad | Portfolio

PROFESSIONAL SUMMARY

Full Stack .NET and Angular developer building ERP workflows across CRM, accounting, HR, healthcare, sales, inventory, and production. Experienced with ASP.NET Core Web API, Entity Framework Core, SQL Server, Angular, and DevExtreme. Develops database, API, and bilingual Arabic/English UI features with attention to permissions, customer data, and testability.

PROFESSIONAL EXPERIENCE

Full Stack Developer (.NET & Angular) | Pioneers Solutions, Cairo | Oct 2024 - Present

- Developed CRM APIs, EF Core models, SQL upgrade scripts, and Angular screens for leads, Customer 360, activities, opportunities, custom fields, dashboards, notifications, and support tickets with working-hours SLA calculations.
- Extended accounting workflows for journal entries, cost centers, cheques, receipts, payment methods, due dates, and financial reports.
- Improved sales documents, returns, inventory transfers, and production job orders; contributed to Egyptian Tax Authority e-Invoicing and e-Receipt workflows.
- Built features for patient documents, admissions, insurance, clinical reports, HR workflows, payroll, and approvals.
- Enhanced SQL-backed reporting and bilingual Angular report views; added permission checks, validation, and automated tests for new CRM workflows.

.NET Development Trainee | Information Technology Institute (ITI), Cairo | Jul 2023 - Sep 2023

- Developed C#, ASP.NET Core, LINQ, SQL Server, and EF Core Code-First projects; applied repository patterns and dependency injection.
- Designed normalized relational schemas and built Windows Forms database utilities.

UI Development Trainee | Information Technology Institute (ITI), Cairo | Jul 2022 - Aug 2022

- Built responsive, cross-browser interfaces with JavaScript, HTML5, CSS3, Flexbox/Grid, and DOM manipulation.

EDUCATION

B.Sc. Computer Science | Menofia University | Sep 2019 - May 2023

Relevant coursework: Database Systems, Software Engineering, Data Structures and Algorithms, Distributed Systems, Operating Systems.

SELECTED PROJECTS

StudyMate - AI Lecture Summarizer & Quiz Generator | Public sample demo

- Built an Angular and ASP.NET Core app that accepts lecture text or PDF files and produces study briefs and multiple-choice quizzes with Gemini. Added PDF upload, structured results, and a public demo with saved AI examples and video walkthroughs; the API key stays private.

Stack: Angular, TypeScript, ASP.NET Core, Gemini API, Docker.

E-Commerce Store | Source code

- Built an ASP.NET MVC store with catalog, inventory, and order workflows. Organized the solution into presentation, business-logic, and data-access layers and published API examples.

Stack: C#, ASP.NET MVC, SQL Server, Postman, Git.

Educational Management System | Source code

- Created a portal for students, faculty, courses, grades, and enrollment with role-based access, validation, and transaction handling.

Stack: C#, ASP.NET Core MVC, Entity Framework Core, SQL Server.

HR Management System

- Designed HR workflows for payroll, leave, attendance, and shifts, including overtime and deduction rules.

Stack: C#, ASP.NET MVC, Entity Framework, SQL Server.

Lung Cancer Detection System - Graduation Project

- Trained CNNs on chest X-ray images and built preprocessing, augmentation, and feature map visualizations with OpenCV and Python.

Stack: Python, CNN, Computer Vision, OpenCV.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core Web API, ASP.NET Core MVC, Entity Framework Core, LINQ, REST APIs, Windows Forms.

Frontend: Angular, TypeScript, JavaScript, RxJS, DevExtreme, HTML5, CSS3, Bootstrap.

Data and tools: SQL Server, DevExpress Reporting, ClosedXML, Postman, Swagger/OpenAPI, Git, GitHub, Python.

Engineering: Layered architecture, dependency injection, repository pattern, role-based access control, automated testing.
