Tasneem Ahmed Gamal Eldin Shehata

Cairo, Egypt Tasneemashehata@gmail.com +20 1062614879 LinkedIn GitHub

PROFESSIONAL SUMMARY

Results-driven **Full Stack .NET & Angular Developer** with extensive enterprise experience building financial, ERP, and supply chain software solutions. Proven expertise in architecting integrations with the **Egyptian Tax Authority (ETA) e-Invoicing & e-Receipt APIs**, developing real-time double-entry accounting engines, and engineering high-throughput batch import/export pipelines. Strong advocate of Clean Architecture, SOLID principles, and building secure, performant RESTful services with ASP.NET Core, EF Core, SQL Server, and modern Angular.

EXPERIENCE

Full Stack Developer (.NET & Angular) *Oct 2023 – Present*

Pioneers Solutions – Cairo, Egypt

- **ETA Tax Authority Compliance Integration:** Architected end-to-end integration for the **Egyptian Tax Authority (ETA)** e-Invoicing (B2B) and e-Receipt (B2C) systems, automating JSON/XML document serialization, cryptographic validation, error recovery, and status synchronization for 10,000+ monthly documents.
- **Financial Journal Processing Engine:** Engineered an automated general ledger engine generating real-time double entries across complex lifecycles (Sales, Purchases, Insurance Claims, Returns) with strict transactional ACID compliance and zero balance drift.
- **High-Volume Data Pipelines:** Developed asynchronous Excel import/export processing services using EPPlus and ClosedXML, processing and validating 20,000+ journal records per batch with zero schema discrepancies before DB commits.
- **Supply Chain & Manufacturing Modules:** Designed backend microservices and responsive Angular interfaces for Inventory (Internal/External Goods Receipts, Goods Issues, Warehouse Transfers) and Production Lines (Work Orders, BOMs, Direct/Indirect Cost Invoices).
- **Healthcare ERP Module:** Implemented transactional clinical billing flows, insurance claim approvals, and patient medical record lifecycles within the enterprise Healthcare ERP module.
- **Granular Security & RBAC:** Implemented a recursive hierarchical permission tree in SQL Server and EF Core to enforce field- and endpoint-level Role-Based Access Control (RBAC) across 100+ system user roles.
- **Dynamic Reporting Engines:** Built dynamic analytical reporting dashboards using DevExpress and Angular, optimizing complex SQL queries and reducing operational report generation latency by 35%.
- **Tech Stack:** C#, ASP.NET Core Web API, Entity Framework Core, SQL Server, Angular, DevExpress, ClosedXML/EPPlus, Git.

.NET Development Trainee *July 2023 – Sept 2023*

Information Technology Institute (ITI) – Cairo, Egypt

- Completed intensive training focusing on enterprise backend engineering with C#, ASP.NET Core, LINQ, and Microsoft SQL Server.
- Designed normalized relational database architectures using EF Core (Code-First) and applied repository patterns and dependency injection.
- Developed desktop database utilities utilizing Windows Forms; verified through official ITI Certification.

UI Development Trainee *July 2022 – Aug 2022*

Information Technology Institute (ITI) – Cairo, Egypt

- Completed hands-on training in client-side engineering, responsive layouts, CSS Flexbox/Grid, and DOM manipulation using modern JavaScript and HTML5/CSS3.
- Built interactive, cross-browser single-page interfaces; verified completion via official ITI Certification.

PROJECTS

Enterprise E-Commerce Platform *Store (MVC) — Postman Docs*

- Developed an e-commerce platform managing catalog items, stock reservations, checkout pipelines, and transaction verification.
- Built both an ASP.NET Core MVC web application and secure REST APIs with full Postman collection documentation covering 25+ endpoints.

- Implemented JWT-based authentication, refresh tokens, and claim-based authorization policies to safeguard user resources.
- **Technologies Used:** C#, ASP.NET Core Web API, Entity Framework Core, SQL Server, Postman, Git.

Educational Management System *GitHub Repository*

- Created a multi-tier ASP.NET portal for institutional tracking of students, faculty, course catalogs, and academic grades.
- Configured role-based access security policies isolating administrative functions from student dashboards.
- Integrated automated validation models and transaction management for grade submissions and enrollment records.
- **Technologies Used:** C#, ASP.NET Core MVC, Entity Framework Core, Microsoft SQL Server.

Human Resources (HR) Management System

- Designed an HR administration system supporting dynamic payroll generation, leave requests, attendance, and shift schedules.
- Implemented automated rule engines for calculating overtime, tax deductions, and unpaid leave penalties.
- **Technologies Used:** C#, ASP.NET MVC, Entity Framework, Microsoft SQL Server.

Lung Cancer Detection System (Graduation Project)

- Trained Deep Convolutional Neural Networks (CNNs) on chest X-ray datasets to classify pulmonary lesions with 92% validation accuracy.
- Implemented image preprocessing, augmentation pipelines, and feature map visualizations using OpenCV and Python.
- **Technologies Used:** Python, Deep Learning, CNN, Computer Vision, OpenCV.

EDUCATION

Menofia University *Sept 2019 – May 2023*

Bachelor of Science in Computer Science (Degree Certificate)

- **Relevant Coursework:** Database Systems, Software Engineering, Data Structures & Algorithms, Computational Theory, Distributed Systems, Operating Systems.

TECHNICAL SKILLS

Programming Languages: C#, TypeScript, JavaScript, SQL, Python, HTML5, CSS3.

Backend Frameworks & Core: ASP.NET Core Web API, ASP.NET Core MVC, Entity Framework Core, LINQ, RESTful APIs, Windows Forms.

Frontend Frameworks & Libraries: Angular (v14+), RxJS, DevExpress, Bootstrap, JSON/XML, Angular CLI.

Databases, Libraries & Tools: Microsoft SQL Server, ClosedXML, EPPlus, Postman, Git, GitHub, Swagger/OpenAPI.

Architecture & Concepts: Object-Oriented Programming (OOP), SOLID Principles, Clean Architecture, Repository Pattern, Dependency Injection, Role-Based Access Control (RBAC), ACID Transactions.
